## **DETAILED ACTION**

### ***Drawings***

1. The drawings filed March 25, 2004 are acceptable.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, in a component tape feeder for supplying pocket tape having components contained therein and a cover tape affixed to a top surface of the pocket tape for retaining the components therein, the prior art does not teach or make obvious the concept of the component tape feeder *consisting of* a tape guide, a component tape drive, a single folding pulley, a cover tape drive, a cover tape drive, a control unit, a motor and a cover tape reservoir in the manner claimed by the applicant.

Regarding claim 17, in a method for handling cover tape detached from pocket tape comprising folding the longitudinal edges of the cover tape inward to enclose within folded confines of the tape any residual adhesive, wherein folding the longitudinal edges inward increases the stiffness of the cover tape and monitoring the quantity of cover tape contained in the cover tape reservoir, the prior art does not teach or make obvious the concept of corrugating the folded tape as it is pushed into a cover tape reservoir in the manner claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
